

## PCB specification for Pidee v1.0

PCB substrate	FR4
PCB thickness	1.6mm
Number of layers	2
Copper weight	1oz / sq. ft (35 um)
Number of resist layers	2
Resist colour	Matt black
Number of ident layers	0
Ident colour	n/a
Copper finish	ENIG
Panelisation requirements	To be panelised 30-up as per panelisation drawing. Panelised Gerbers to be approved before production begins. If in doubt please ask. parts.
